

MOBILE ROBOTS

About us

Storytelling

We were born in 1960 from a wish of Ettore Beretta and still today, guided by the second generation, we are committed to the development and production of first-rate automated solutions, that are always born from an attentive analysis of the client's needs. We create advanced manufacturing solutions, that thanks to the high level of innovation, safety and design improve efficiency, quality and well-being in Industry 4.0 environments.
